

School Safety and Prevention

Resource Catalog: HIV/Sex Education

These curricula have been approved by the Arizona Department of Education's Materials Review Committee (MRC) to ensure medical accurateness and compliance with state and federal laws.

	<p>Reducing the Risk: Building Skills to Prevent Pregnancy, STD, & HIV 4th Edition</p>	<p>This research-proven curriculum addresses skills such as risk assessment, communication, decision making, planning, refusal strategies and delaying tactics. The major focus of this curriculum is the development of attitudes and skills that will help teens prevent pregnancy and the transmission of STD, including HIV. The lessons motivate students to take steps to avoid high-risk behaviors.</p> <p>Grade levels 9-12</p>	<p>Published by ETR Associates www.etr.org</p>
	<p>Making A Difference! An Abstinence-Based Approach to HIV/STD and Teen Pregnancy Prevention</p>	<p>This eight-module curriculum is designed to empower adolescents to change their behavior in ways that will reduce their risk of becoming infected with HIV, other STDs, and becoming or getting someone pregnant. Specifically, this curriculum advocates postponing sexual activity and emphasizes that abstinence is the only way to completely eliminate their risk for STDs, HIV, and pregnancy.</p> <p>Grade level 6-9</p>	<p>Published by Select Media, Inc. www.selectmedia.org</p>
	<p>Get Real About AIDS</p>	<p>Curricula are detailed and fact-based with age-appropriate messages. Their primary purpose is to reduce the risk of HIV transmission. The program attempts to reach children before they become sexually active, teaches social skills that will help them avoid risky sexual behavior, and promotes sexual abstinence.</p> <p>Grades 6-9, 9-12</p>	<p>AGC Media http://www.unitedlearning.com/curriculum_programs/graa.cfm?id=106</p>

	<p>Preventing Teen Pregnancy: Youth Development and After-School Programs</p>	<p>This manual is designed for staff in youth-serving agencies who are interested in preventing teen pregnancy. The manual draws upon both evidence from research and wisdom from people who have expertise in program implementation. This manual identifies 13 types of programs with promise for reducing teen pregnancy and provides basic “nuts and bolts” information about how to implement them.</p>	<p>Published by ETR Associates ISBN 1-56071-616-9 www.etr.org</p>
	<p>Puberty: The Wonder Years</p>	<p>This manual provides students with information, builds self-efficacy, teaches skills, and encourages the use of those skills outside the classroom. There are 20 lessons in this curriculum for students in upper elementary to early middle school. They are organized into three clusters of lessons, called tiers. Each tier is designed to be taught as a unit for students in one grade; thus, there are lessons for three consecutive years.</p>	<p>Wendy L. Sellers, RN, CPS Published by Educational Materials Center at Central Michigan University www.emc.cmich.edu</p>
	<p>Teaching Kids About How AIDS Works: A Curriculum for Grades K-3 and Grades 4-6</p>	<p>These two curricula—for grades K through three and for grades four through six—include information and skills-building exercises to help young people prevent HIV/AIDS. These curricula include parents in the learning process; stress that young children have the capacity to understand complex issues if the message is delivered in a “clear, age-appropriate manner,” and provide the teacher with background information. The K- through grade-three curriculum contains 21 lessons and five evaluation activities; the grade four through grade-six curriculum contains 28 lessons, seven evaluation activities, and seven family activities.</p>	<p>David Schonfeld, M.D., and Marica Quackenbush, M.S., M.F.C.C. Published by ETR Associates ISBN 1-56071-377-1 ISBN 1-56071-378-x www.etr.org</p>

	<p>Sex Smart for Teens: Abstinence Video/Facilitator's Guide</p>	<p>This video is intended for use in secondary schools, abstinence education presentations, hospital and community outreach programs, public health clinics, and faith-based groups. The target audience for this program is students ages 11-21. Encourages teens to consider abstinence as a healthy choice, Discusses the consequences of sex and offers peer testimonials, and explains effective decision-making and refusal skills.</p>	<p>InJoy Videos Distributed by ETR Associates</p> <p>VHS/34 minutes</p> <p>www.etr.org</p>
	<p>BloodBorne Pathogens: Protection In Educational Environments</p> <p>Video</p>	<p>This video details OSHA's Bloodborne Pathogens Standard (1910.1030) and the training specifically mandated for educators.</p>	<p>Coastal Training Technologies Corp. CAT.NO. BBP05V</p> <p>VHS/20 min.</p> <p>http://www.coastalschools.com/SCcatalog.pdf</p>
	<p>TOOTHPASTE; Video</p>	<p>Best friends discuss their ideas on what constitutes a relationship that is healthy enough for sex and its corresponding responsibilities. This film deals with dating pregnancy prevention, communication, self esteem, friendship and commitment.</p>	<p>Scenarios USA</p> <p>VHS/16 min.</p> <p>http://www.scenariosusa.org/</p>
	<p>AIDS UPDATE: The Latest Facts About HIV and AIDS</p>	<p>This program has been created to help teenagers understand the most current HIV and AIDS information. The program, along with the activities in this Teacher's Resource Book, will help students translate the growing body of HIV information into tools they can use to protect themselves against HIV infection.</p>	<p>Human Relations Media Distributed by ETR Associates</p> <p>DVD/28 min.</p> <p>www.etr.org</p>

	<p>What Kids Want To Know About Sex And Growing Up</p> <p>Video</p>	<p>An extensively researched program for 10-14 year olds that makes it easier to talk to students about puberty and sex. Topics include: the physical and emotional aspects of puberty, sexual intercourse, AIDS, conception, masturbation, peer pressure, parenting, and more.</p>	<p>GPN Educational Media Distributed by ETR Associates</p> <p>VHS/60 min.</p> <p>www.etr.org</p>
	<p>Oral Sex: Fair Game?</p> <p>DVD</p>	<p>Intended for grades 9-12. Explains the risks with oral sex. Includes interviews with medical experts, counselors and teens. Features a contemporary soundtrack designed to grab teens' attention.</p>	<p>ETR Associates</p> <p>DVD/22 min.</p> <p>www.etr.org</p>
	<p>HIV/AIDS A Personal and Global Perspective</p>	<p>An educational program in collaboration with the Henry J. Kaiser Family Foundation and Viacom/MTV. The topics include: Teen pregnancy, birth control, HIV/AIDS, STDs, risky and dangerous behavior.</p>	<p>DVD</p>
	<p>Sex Is Not A Game</p>	<p>In response to popular demand, The Medical Institute followed up their Telly-Award winning "Just Thought You Oughta Know" video with a high-impact portrayal of the consequences of casual sex. With emotional appearances from a variety of teens, this gripping video encourages teens to re-think their risky sexual behavior. Intended for grades 9-12.</p>	<p>The Medical Institute www.medinstitute.org/products</p> <p>Video Running time: 11 minutes.</p>

 <p>The image shows the cover of a CD-ROM titled 'Optimal SEXUAL HEALTH: Scientific Dimensions'. The cover is circular with a green top half and a white bottom half. The top half contains the title in blue and black text, along with a small logo for 'The Medical Institute'. The bottom half features a collage of four small photographs: a couple, a family, a person, and a group of people.</p>	<p>Optimal Sexual Health: Scientific Dimensions</p>	<p>This CD-Rom offers medically accurate information in over 800 slides saved as jpeg images which are easily incorporated into PowerPoint.</p> <p>This CD-Rom offers the ability to customize presentations to address specific audiences on a variety of sexual health topics. The following topics are available:</p> <p>*Optimal Sexual Health: Scientific Dimensions CD-ROM (complete set). This new resource offers an in-depth look at topics including:</p> <ul style="list-style-type: none"> • <u>Today's Sexual Health: An Overview</u> • <u>Sexually Transmitted Infections</u> • <u>Nonmarital Pregnancy</u> • <u>Alternate Sexual Practices</u> • <u>Abstinence</u> • <u>Contraceptives & Condoms</u> • <u>Marriage & Family</u> • <u>Anatomy/Physiology</u> • <u>Microbiology</u> • <u>Connected Parents</u> • <u>Sex Education</u> • <u>Healthcare Providers Make a Difference</u> 	<p>The Medical Institute www.medinstitute.org/products</p>

Function and Process for the Materials Review Committee

1. Why do we review materials?

We review materials to provide schools with a list of medically accurate, age-appropriate resources that comply with state and federal guidelines.

- *The Centers for Disease Control and Prevention (CDC) requires that materials used in CDC-funded Arizona Department of Education (ADE) activities be reviewed by a committee (Section 2500 b, c, and d, of the Public Health Services Act).*
- *Arizona Revised Statute (ARS 15-716) requires that ADE provide a suggested course of study at the request of a school district.*
- *We want schools to have access to HIV, STD, sex education, and human development resources that are medically accurate and age-appropriate.*
- *We want materials that have been reviewed and approved by a variety of individuals (e.g., teachers, school nurses, administrators, community health educators, parents, and students) to be available to schools.*

2. What criteria do we use for approving HIV materials?

We use a product review sheet to evaluate materials based on:

- *the components of state and federal policies that prescribe the contents of HIV, STD, human development, and sex education materials;*
- *the accurateness of information presented within the material;*
- *and if the material is appropriate for the number of pupils in a typical classroom.*

3. How is a material approved?

The majority of committee members must approve the material based on the criteria stated above. The Committee Chair (the ADE HIV Prevention Project Coordinator) will select materials for the meetings, facilitate meetings, and record committee decisions. Committee members, school personnel, and other CDC grant recipients can also arrange for materials to be reviewed by the committee.
